

Work From Home Policy

VWGDS (Demo) — Enterprise Policy Pack

Document ID	VWGDS-POL-WFH-010	Version	2.6
Owner	Human Resources	Effective Date	01-Apr-2026

This is a fictional demo document created for AI assistant / RAG training purposes. It does not represent an actual Volkswagen Group Digital Solutions policy.

1. Purpose

This policy defines the eligibility, expectations, and operational guidelines for employees working from home or in a hybrid work arrangement.

2. Scope

Applicable to all employees whose role has been assessed as eligible for remote or hybrid work by their Department Head and HR.

3. Definitions

Term	Definition
Hybrid Work	A work arrangement combining scheduled in-office and work-from-home days within a given week.
Remote-Eligible Role	A role assessed as not requiring mandatory on-site presence for core responsibilities.
Core Hours	The defined window during which employees must be reachable and available, regardless of work location.
WFH Day	A pre-scheduled or ad-hoc day on which an employee works from a non-office location with manager approval.

4. Policy

Eligibility

Roles are assessed by the Department Head in consultation with HR based on the nature of work; client-facing operational and facility roles requiring physical presence are generally not eligible for regular WFH.

Standard Hybrid Cadence

Eligible employees may work from home up to 2 days per week, with a minimum of 3 days mandatory in-office presence, unless a different cadence is approved for the team.

Core Hours

All employees, regardless of location, must be available and responsive during Core Hours of 10:00 AM to 4:00 PM IST.

Ad-hoc WFH

Occasional WFH requests outside the standard cadence must be informed to the Reporting Manager at least 1 day in advance, except in emergencies.

Equipment & Ergonomics

Employees working from home are expected to maintain a secure, professional, and ergonomically reasonable workspace; company equipment issued for WFH remains company property and must be returned upon request or exit.

5. Approval Matrix

Scenario	Approval Required
Standard hybrid cadence (up to 2 days/week)	Reporting Manager
Extended/full-time WFH (medical or exceptional)	Department Head + HR
WFH from a different city/location	Department Head + HR + IT Security

6. Workflow

Step 1. Employee and Reporting Manager agree on a standard weekly hybrid cadence.

Step 2. WFH days are marked in the attendance/HR system for tracking.

Step 3. Ad-hoc WFH requests are raised and approved directly by the Reporting Manager.

Step 4. Extended or location-change WFH requests are escalated to HR for formal review.

Step 5. Attendance and productivity are reviewed periodically as part of standard performance processes.

7. Exceptions

- Employees with a documented medical condition may be granted extended WFH beyond the standard cadence with HR and medical documentation review.
- During declared emergencies (e.g., severe weather, public health advisories), full WFH may be temporarily mandated for all eligible roles by leadership.

8. FAQs

Q: Can I work from a different city temporarily?

A: Yes, with prior approval from your Department Head, HR, and IT Security, since data access controls may need adjustment based on location.

Q: What happens if I miss Core Hours availability while on WFH?

A: Occasional exceptions with prior notice to your manager are acceptable; repeated unavailability during Core Hours may result in review of WFH eligibility.

Q: Is WFH applicable to Management Trainees during the internship period?

A: Yes, subject to the same hybrid cadence and Reporting Manager approval as regular employees, unless the specific program requires full on-site presence.
