

Visitor Management SOP

VWGDS (Demo) — Enterprise Policy Pack

Document ID	VWGDS-SOP-VMS-007	Version	2.2
Owner	Facility & Workplace Operations	Effective Date	01-Mar-2026

This is a fictional demo document created for AI assistant / RAG training purposes. It does not represent an actual Volkswagen Group Digital Solutions policy.

1. Purpose

This SOP establishes the process for pre-registration, on-site verification, and access management of visitors to ensure workplace security and a professional visitor experience.

2. Scope

Applicable to all office locations (Pune, Gurugram, Bengaluru) for external visitors including guests, vendors, auditors, and candidates.

3. Definitions

Term	Definition
Host Employee	The employee responsible for inviting and being accountable for a visitor during their visit.
Pre-registration	Advance registration of visitor details in the Visitor Management System (VMS) before arrival.
Escort Requirement	The mandate that certain visitor categories must be accompanied at all times within office premises.
Restricted Zone	Areas such as server rooms or executive floors requiring additional access approval.

4. Policy

Mandatory Pre-registration

All visitors must be pre-registered in the VMS by the Host Employee at least 2 hours before arrival, including full name, company, and purpose of visit.

Identity Verification

Visitors must present a valid government-issued photo ID at the reception, which is verified and logged against the pre-registration entry.

Escort Policy

Vendors and delivery personnel must be escorted at all times; business guests and interview candidates may move unescorted only within designated meeting zones.

Badge Issuance

A visitor badge with photo and validity is issued at check-in and must be visibly worn throughout the visit; badges must be returned at check-out.

Restricted Zone Access

Access to server rooms, data centers, or executive floors requires additional written approval from the Facility Manager, independent of standard visitor registration.

5. Approval Matrix

Scenario	Approval Required
Standard visitor registration	Host Employee
Vendor/contractor recurring access	Facility Manager
Restricted zone access	Facility Manager + IT Security
VIP/executive visitor	Admin Team + Facility Manager

6. Workflow

Step 1. Host Employee pre-registers visitor details in the VMS.

Step 2. Visitor arrives at reception and presents government ID for verification.

Step 3. Reception validates ID against pre-registration and issues a visitor badge.

Step 4. Host Employee is notified and receives/escorts the visitor as applicable.

Step 5. On departure, visitor badge is collected and check-out is logged in the VMS.

7. Exceptions

- Walk-in visitors without pre-registration may be admitted only after telephonic confirmation from the Host Employee and manual ID logging, subject to Facility Manager discretion.
- Government or regulatory auditors may be granted expedited access with Facility Manager and Legal sign-off, bypassing standard 2-hour advance notice.

8. FAQs

Q: What if my visitor arrives without prior registration?

A: Reception will attempt telephonic verification with the Host Employee; entry cannot be guaranteed without this step.

Q: Can a visitor badge be reused for a multi-day visit?

A: No, a fresh badge is issued each day; multi-day vendor engagements may be issued a temporary access card by the Facility Manager.

Q: Who is responsible for a visitor's conduct on premises?

A: The Host Employee is accountable for the visitor throughout the duration of the visit.
